

Xerox® EX 280 Print Server Powered by Fiery®

SPECIFICATIONS

Build a more profitable future with the Xerox® Versant® 280 Press and an easy-to-use, powerful digital front end that delivers outstanding quality and best-in-class performance.

MORE HIGH-VALUE JOBS, FASTER

Meet critical customer turnaround times and increase production capacity with the EX 280 Print Server, which processes jobs more than twice as fast compared to the EX-i 280 Print Server.

GET OUTSTANDING COLOR EVERY TIME

Get the best out-of-the-box color consistency and accuracy with powerful color matching, plus optional profiling and automated calibration. Add Fiery Graphic Arts Package, Premium Edition to get perfect brand color reproduction, the ability to correct color on-the-fly, and reduced waste.

Fiery® Ultra Smooth Gradients combines 10-bit architecture and special processing to deliver smooth vector gradients that will delight your customers by printing with the true appearance designers intended.

SPEED UP MAKEREADY

Fiery Impose simplifies layout work with intuitive, visual document imposition. Speed up production with imposition templates to automate common layouts. You can even integrate with offline finishers to automate processes from prepress to finishing, reducing job setup time by up to 70%. And easily perform elaborate document preparation with optional advanced makeready tools.

GO BEYOND CMYK

With the optional Adaptive CMYK+ Kit, the Fiery Driven™ Versant 280 Press can be almost instantly configured to print millions of colors via multiple drop-in/pull-out toner and specialty toner sets, including white, metallics, and Xerox-exclusive fluorescent CYM.

BOOST PROFITS WITH PERSONALIZATION

The EX 280 Print Server supports all variable data printing (VDP) formats. Or use Fiery FreeForm™ Create, an included application that allows you to quickly and simply create personalized jobs for print production. Add variable elements such as text, images, or barcodes with just a few clicks

MORE PERFORMANCE AND PRODUCTIVITY

The Performance Package option, a combination of EFI and Xerox software and hardware, integrates powerful tools designed for professional production environments to achieve the highest color consistency and precision, streamline job preparation, and achieve maximum productivity.

PRINT PERFECT PDFS

By supporting the Adobe® PDF Print Engine®, Fiery servers offer a native end-to-end PDF workflow, allowing you to improve the consistency of your printed output from design to print.
